

Controlling Exhaust Emissions

Protecting people, their investment and our environment

Sustaining your ability in Controlling Exhaust Emissions

Markets Served

Airports | Bulk Handling - Paper to Timber | Construction Industry | Local Government, Community & Commercial Premises
| Material Handling | General Manufacturing & Storage | Mining | Ports | Tunnelling | Waste Management |

COMPANY OVERVIEW

CORPORATE OVERVIEW

Pyroban EnviroSAFE® a Pyroban Group company has been designing & manufacturing industrial exhaust emission solutions since 1995.

Building on Pyroban's 37 years of engineering excellence, Pyroban EnviroSAFE continues to serve a wide range of industries with exhaust emission solutions, helping companies operate in a more environmentally, sustainable manor.

WHY PYROBAN ENVIROSAFE?

The use of diesel and LPG engines for mining, construction and material handling creates a number of special pollution concerns. Reducing toxic gases such as carbon monoxide, hydrocarbons, particulate matter and nitrogen oxides to improve air quality for workers are some of the key principles on which Pyroban EnviroSAFE was founded.

Today with sales, service and manufacturing facilities in the UK and the Netherlands serving the international markets, Pyroban EnviroSAFE provides an advanced proven range of diesel and LPG pollution and emission control solutions, stopping exhaust emissions at the source.

- EnviroSAFE continue to work closely with leading organisation bodies such as the **Environment Industry Commission** (EIC) and the **Energy Saving Trust** (EST), *promoting and implementing* the benefits of reducing industry exhaust emissions.

PRODUCT OVERVIEW

Using a variety of exhaust abatement technology, Pyroban Envirosafe continue to address environmental and health and safety concerns from engine exhaust emissions on a local level, in order to address global concerns.

WORK PLACE EMISSIONS & SOLUTIONS

STANDARD SYSTEMS

System	Carbon Monoxide (CO)	Hydrocarbons (HC)	Total Particulate Matter (PM)	Nox (NO & No ₂)	Sparks
PTX Diesel Catalyst	●	●			
Acti-Trap D	●	●	●		
Acti-Trap F			●		
Temp Trap			●		
EWR Filter			●		
TWX LPG Cat.	●	●		●	
Spark Arrestor					●

SYSTEM COMBINATIONS

System	Carbon Monoxide (CO)	Hydrocarbons (HC)	Total Particulate Matter (PM)	Sparks
PTX Diesel Catalyst Acti-Trap F	●	●	●	
PTX Diesel Catalyst Temp Trap	●	●	●	
PTX Diesel Catalyst EWR Filter	●	●	●	
PTX Diesel Catalyst Spark Arrestor	●	●		●

To reduce further exhaust emissions, Pyroban Envirosafe offers full system combinations, ensuring maximum emission control; helping you comply with air quality standards & H&S requirements.
